

This readme file was generated on \_\_\_\_\_ (date) by \_\_\_\_\_  
(name).

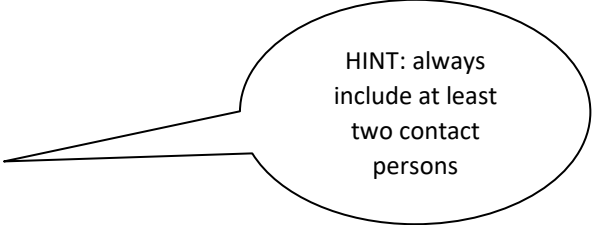

readme file version number \_\_\_\_\_

## GENERAL INFORMATION

Title of Dataset:

Author/Principal Investigator Information

Name:

HINT: always  
include at least  
two contact  
persons

ORCID:

Institution:

Address:

Email:

Author/Associate or Co-investigator/ Alternate Contact Information

Name:

ORCID:

Institution:

Address:

Email:

Date(s) of data collection:

Hint: provide single date,  
range, or approximate  
date; suggested format  
YYYY-MM-DD

Geographic location of data collection:

HINT: provide  
latitude, longitude,  
or city/region, State,  
Country

Information about funding sources that supported the collection of the data:

## SHARING/ACCESS INFORMATION

Licenses/restrictions placed on the data:

Links to publications that cite or use the data:

Links to other publicly accessible locations of the data:

Links/relationships to ancillary data sets:

Was data derived from another source?

If yes, list source(s):

Recommended citation for this dataset:

## DATA & FILE OVERVIEW

File List:

HINT: list all files (or folders) for dataset, with a brief description

Relationship between files, if important:

Additional related data collected that was not included in the current data package:

Are there multiple versions of the dataset?

If yes, name of file(s) that was updated:

Why was the file updated?

When was the file updated?

HINT: include links or references to publications or other documentation containing experimental design or protocols used in data collection

## METHODOLOGICAL INFORMATION

Description of methods used for collection/generation of data:

Methods for processing the data:

HINT: describe how the submitted data were generated from the raw or collected data

Instrument- or software-specific information needed to interpret the data

HINT: include full name and version of software, and any necessary packages or libraries needed to run scripts

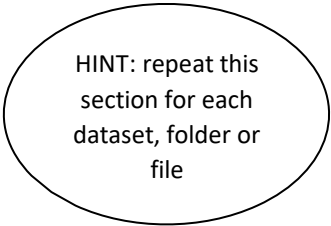

Standards and calibration information, if appropriate:

Environmental/experimental conditions:

Describe any quality-assurance procedures performed on the data:

People involved with sample collection, processing, analysis and/or submission:

DATA-SPECIFIC INFORMATION FOR: \_\_\_\_\_ (filename)

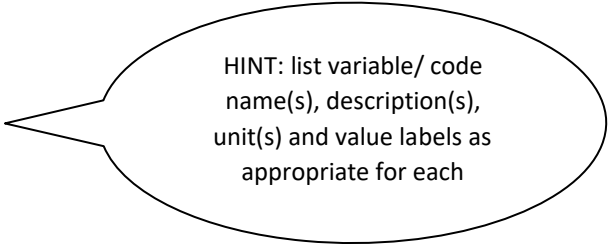

HINT: repeat this section for each dataset, folder or file

Number of variables:

Number of cases/rows:

Variable List:

HINT: list variable/ code name(s), description(s), unit(s) and value labels as appropriate for each

Missing data codes:

Specialized formats or other abbreviations used:

This worksheet is heavily derived from the readme template ([CC0 1.0 Universal](#)) created by the Cornell University Research Data Management Service Group and they should be given credit for template's structure and content. You can find the template [here](#).

For the sake of legal clarity, we also assign a [CC0 1.0 Universal](#) license to this version of the worksheet. If you wish to cite this work, you can use the citation below, but please also give credit to the Cornell Team.
